

Project Handover Documentation

Prepared by: Zahir (+60149947806)

1. IESB LMS (stack: moodle (php), mysql)

Production app (live): <https://iesb.com.my/moodle/>

Admin access (production app): Login using these credentials

Username: zahir

Password: Admin@1234

Production server (cpanel): <https://sc139.mscloudhosting.cloud:2083/>

Project folder (in production server):

- i. **Main source code:** File Manager -> (/home/iesbcomm)
public_html -> moodle
- ii. **System data:** File Manager -> (/home/iesbcomm) moodledata
- iii. **Database:** phpMyAdmin -> (under iesbcomm) (under moodle)
iesbcomm_moodle

Local (development): <https://github.com/zahir248/moodle.git>

2. Bina E-Ticketing System (stack: laravel, mysql)

Production app (live):

- i. <https://bina-cidbibs.my/> (actual link)
- ii. <https://iesb.com.my/Bina2026/> (for development purpose)

Access admin site in the production app: Login using these credentials

- i. Email address: superadmin@example.com
- ii. Password: Admin@1234

Production server (cpanel): <https://sc139.mscloudhosting.cloud:2083/>

Project folder (in production server):

- i. **Main source code:** File Manager -> (/home/iesbcomm) Bina2026
- ii. **System data (insensitive):** File Manager -> (/home/iesbcomm)
public_html -> Bina2026

- iii. **Database:** phpMyAdmin -> (under iesbcomm)
iesbcomm_Bina2026

Local (development): <https://github.com/zahir248/Bina2026.git>

Payment gateway API:

- i. Toyyibpay: <https://toyyibpay.com/index.php/access/login>
- ii. Stripe: <https://dashboard.stripe.com/login>

3. EST Group Website (stack: laravel, mysql)

Production app (live): <https://estgroup.com.my/>

Access admin site in the production app:

<https://estgroup.com.my/admin/login> | Login using these credentials:

- i. Email: EstGroup#Admin2026!
- ii. Password: info@estgroup.com.my

Production server (cpanel): <https://jassid.mscloudhosting.com:2083/>

Project folder (in production server):

- i. **Main source code:** File Manager -> (/home/mygooner)
estgroup.com.my
- ii. **System data (insensitive):** File Manager -> (/home/mygooner)
public_html -> estgroup.com.my
- iii. **Database:** phpMyAdmin -> mygooner_estgroup

Local (development): <https://github.com/zahir248/estgroup.com.my.git>

4. ARAS (Asset Management System)

5. MyGooners

6. Nujum (stack: laravel, mysql)

Production app (live) *web: <https://iesb.com.my/nujum/>

Access admin site in the production app *web:

<https://iesb.com.my/nujum/superadmin/login> | Login using these credentials:

- i. Email address: superadmin@example.com
- ii. Password: password

Production server (cpanel): <https://sc139.mscloudhosting.cloud:2083/>

Project folder (in production server) *web:

- i. **Main source code:** File Manager -> (/home/iesbcomm) nujum
- ii. **System data (insensitive):** File Manager -> (/home/iesbcomm) public_html -> nujum
- iii. **Database:** phpMyAdmin -> (under iesbcomm) iesbcomm_prediction-ai

Local (development) *web: <https://github.com/zahir248/nujum-web.git>

Production app (live) *mobile: <https://github.com/zahir248/nujum-mobile/releases/download/v1.0.0/nujum.apk?raw=1> (download mobile app link)

Access admin site in the production app *mobile: Login using these credentials:

- i. Email address: superadmin@example.com
- ii. Password: password

Local (development) *mobile: <https://github.com/zahir248/nujum-mobile.git>

AI Provider API:

- i. Google Gemini: <https://aistudio.google.com/api-keys>
- ii. OpenAI ChatGPT: <https://platform.openai.com/api-keys>

Push notification API:

- i. OneSignal: <https://onesignal.com/>

Data extraction API:

- i. Apify: <https://apify.com/>

Payment gateway API:

iii. Toyyibpay: <https://toyyibpay.com/index.php/access/login>

7. SMK Seremban 3 Website

8. UGREEN NAS Storage

Client ID: dxp2800-a092-Wp8K

Download software here (Android, IOS, Windows, Apple tvOS):

<https://nas.ugreen.com/pages/app-download>

Access the system through web: <https://ug.link/dxp2800-a092-Wp8K>

Login password firefox: Admin123

Additional Detail (credentials, etc)

1. CIDB IBS *client for Bina E-Ticketing System

- a. **Production server (cpanel):** <https://sc1311.mschoosting.cloud:2083> | Login using these credentials

Username: binacidb

Password: MyCIDB_BINA2025!

b. **Payment gateway:**

- i. **toyypay:** <https://toyypay.com/index.php/access/login>

Username: BINA2025

Password: Najjah001!

- ii. **Stripe:** <https://dashboard.stripe.com/login>

Email: bina@cidbibs.com.my

Password: binalB\$12345@dm1

2. Internal *company-owned

a. **Production server (cpanel):**

Domain: mygooners.my

URL: <https://jassid.mschoosting.com:2083/>

Username: mygooner

Password: ,6S-yWQ7CNwU

Domain: lensatigad.my

URL: <https://sc161.mschoosting.cloud:2083/>

Username: lensatig

Password: @yf7KT,WAn3|

Domain: iesb.com.my

URL : <https://sc139.mschoosting.cloud:2083/>

Username :iesbcomm

Password :IESB2024!

b. Payment gateway:

- i. **toyyibPay:** <https://toyyibpay.com/index.php/access/login>
